Please Note:
All product shots are artistic interpretations of actual product. Due to the nature of the printing process, we recommend obtaining physical samples of product for actual color representation.

Chapter 18 Rotunda Collection reflects the shade variations associated with natural stone. As with all natural stone tiles, we strongly recommend laying out and blending the tiles prior to installation. This step will ensure a proper color blend in order to achieve a classic look for your installation.

We recommend installing Chapter 18 products using a high-quality white thin set. Sealing all natural stone tiles wiht a high-quality sealer prior to grouting to ensure an easy cleaning and as part of a maintenance regimen is also highly recommended. Consult your sealer manufacturer for reapplication recommendations as part of an ongoing maintenance routine.
