Since its founding in 1891, Acme Brick has continually advanced the art and science of providing affordable, sustainable, enduring, and beautiful product choices for America’s homeowners, builders, contractors, institutions, and businesses.

Acme Brick Tile & Stone traces its roots back to 1964 and is a leader in providing builders, architects, designers, and contractors with a wide range of excellent products. At more than 50 locations across 13 states, Acme Brick Tile & Stone offers distinctive products of superior quality, sourced from around the world and delivered with impeccable service - and at many locations, in-house design assistance. Our customers include builders, architects, designers, contractors, and DIY homeowners.

In ways large and small, Acme Brick associates work hard to provide building materials that are as good for the environment as it is for the people who build with it.

PORCELAIN AND WALL TILES: A SAFE CHOICE
Blaze recreates the beauty of oxidized metal in the best porcelain floor tiles and the purest ceramic wall tiles. Exposed to the action of oxidizing agents, metal surfaces evolve, developing an unparalleled color range and aesthetic complexity. Constant research and experimentation with graphics reinvents the beauty of oxidized metal in Blaze, a powerful and modern interior design tool.
Blaze offers a snapshot of the oxidation process at its aesthetic peak. It does so with surprising realism, bringing out the material’s strength and industrial spirit. Different colors, drips, and abrasions stand out on the surface of the product together with iridescent effects and reflections that shift with the changing light.
 Blaze is a collection with a strong visual impact that recalls Urban Industrial and Raw Luxe styles and the Rusty Chic fashion trend. The strength of the oxidized metal and its time-worn charm define the authentic character of public and private interiors. The fusion of the materials and the coexistence of furnishings from different sources create a style of bold elegance and unmistakable personality.
A SOFT, DELICATE LUSTER

Also available in a polished finish, Blaze is bursting with the brilliance typical of metals. An additional surface treatment is used to sand – at a microscopic level – only the top of the ridges created by the mold. When struck by light, the ceramic surface generates a diffused, non-reflective sheen that retains the tactile sensation typical of an oxidized patina.
Verdigris is a bluish green bloom on a copper-colored base, available only in the wall tiles.

* Available in Corten
Blaze’s selection of decorations emboldens the character of the room design, expressing itself in unique textures capable of satisfying every compositional fantasy. From hexagons to mosaics to three-dimensional reliefs, different geometries enhance the entire porcelain decorative range, multiplying its application potential.
The wall tiles are enriched with sophisticated solutions, like mosaics embellished with shiny metal inserts and layered earthy patterns that allow you to design spectacular walls or functional backdrops.

RUST IN FULL SUNLIGHT

The oxidized metal effect in its most representative color reveals the contemporary spirit of a large villa with swimming pool. Corten reinforces the character of the architecture and shapes the open spaces, while inside the brightness of Aluminium expands the rooms and embellishes them with silvery reflections.
Porcelain slabs with a thickness of 20 mm are highly durable and frost-resistant, making them ideal for all outdoor floors, like terraces, pool sides, walkways, and driveways.
When exposed to natural light, Corten reveals an unexpected richness of color and a lively surface, full of reflections and shimmering materials.
UNLIKE REAL METAL SLABS, OXIDIZED METAL-EFFECT PORCELAIN TILES PRESERVE THEIR UNMISTAKABLE INDUSTRIAL BEAUTY OVER TIME.

ECHOES OF TIME PAST

A double-height loft with monumental windows blending minimalism and a post-industrial conversion. Blaze adorns luminous, spacious environments with large surfaces that are a continuous succession of visual stimuli, sometimes purely graphic, sometimes linked to the colors of the various metallic looks.
WITH ITS LIGHT COLOR STREAKED WITH SILVER ALUMINIUM BRINGS LIGHT INTO ANY ROOM TOGETHER WITH THE SENSE OF COMPOSITIONAL FREEDOM ASSOCIATED WITH A WHITE PALETTE.
BLAZE UNEQUIVOCALLY DEFINES THE NATURE OF ANY ENVIRONMENT, APPEARING TO SINK ITS ROOTS IN TIME, CREATING LIVED-IN INDUSTRIAL SPACES RICH IN ECHOES.

THE APPEAL OF OPPOSITES

A bathroom with a precise, chiaroscuro design based on surfaces rich in material character. Iron and Aluminium react in opposite ways to rays of light, but they combine to render the visual appeal of the oxidized metal effect more intense.
THE IRON AND ALUMINIUM WALL TILES HAVE THE SAME COLORS AND GRAPHIC DESIGN AS THE PORCELAIN FLOOR TILES.
The shaded, irregular edges of the stripes decoration suggest the idea of rust buildup and generate bright metallic reflections.
EVEN IN A HOME BATHROOM THERE'S SPACE FOR THE INFINITE POTENTIAL OF BLAZE WITH ITS CONTRASTING COLORS, TEXTURED DECORATIONS, BLACK-SILVER REFLECTIONS, AND CERAMIC FURNISHINGS.

Note on polished finish

The semi-glossy polished finish is suitable for residential or low-traffic commercial floors, where no anti-slip performance is required. The surfaces shine and great ease of cleaning are the result of in-depth studies and technical research aimed at ensuring its durability over time. If the product is in direct contact with the outdoors, moisture and dirt absorption devices must be used to prevent scratching.

While porcelain tiles are ideal for use on the floor thanks to their hardness and extreme durability, the lightweight and workability of white body tiles make them ideal for use on walls: cuts and holes can be made quickly and easily, reducing installation time and costs.

**WALL TILES ADDITIONAL BENEFITS**

- **Ease of installation**: Cuts, holes, and bevels are easily made and reduce the time it takes to lay the white body tiles.
- **Extremely easy to clean**: White body ceramic tiles can be cleaned with a simple passage of hot water or neutral detergent.
