AN IMPULSE OF INDUSTRIAL CHIC

In a modern metropolitan space, a surface with a troweled concrete effect becomes the perfect background to show off your idea of interior design. To create environments that reflect the character of those who live there.
UNDERSTATEMENT AS AN ATTITUDE, PERSONALITY AS A CHOICE

The warm shades of oxidation coexist with the cooler hues typical of concrete, in a surface that stands out for its decisive identity.
With their troveled concrete effect and soft touch, the wall tiles are energized by colors that brighten up the rigor of metropolitan style, creating beautiful spaces to live in.
Technical performance and beauty coexist without compromise in large slabs that achieve new levels of excellence. The industrial concrete effect fills the space with a single continuous material, lending itself to multiple uses like floors, walls, and furnishing elements.
Thanks to the Italian touch and attention to detail, the collection surpasses the minimalism of industrial style to become the centerpiece of original environments with a strong identity.
The concrete effect opens up multiple avenues for design possibilities. Its versatility, thanks also to the anti-slip 120x120 cm format and to the 20 mm thickness specific for exteriors, allows for a total look with a powerful visual impact.
PERFECTLY CONCRETE

The decisive character of the concrete effect and the neutral tones of its palette merge in a balanced space, that gives a voice to the different personalities of those who live there.
THE POWER OF MATTER

THE INTENSITY OF THE MATTER IS ITS TRUE STRENGTH: CAPABLE OF GIVING FREE EXPRESSION TO AN URBAN CHIC STYLE, EVERY TIME DELINEATING AN ORIGINAL CONCEPT OF ENVIRONMENT.

Does not release volatile organic compounds (VOC).
THE VERSATILITY OF THE TROWELED CONCRETE EFFECT SPEAKS A METROPOLITAN LANGUAGE IN ANY KIND OF RESIDENTIAL OR COMMERCIAL ENVIRONMENT, PROVING ITSELF TO BE THE IDEAL SOLUTION EVEN IN EXTRA-URBAN SETTINGS.

Ensures durability over time long into the future.

Going beyond simplicity

THE IDEAL SETTING FOR ANY STYLE

The versatility of the surface lends itself to creating environments that reflect the taste of those who designed them. The concrete effect creates the ideal setting for displaying stylish objects.
Can be installed with precise grout lines. This lends to a continual look to surfaces.
The vigorous look of concrete-effect porcelain floor tiles defines the atmosphere of retail projects and hospitality spaces. The earthy surface combined with warm shades becomes an element of compelling expressiveness.

The surface is resistant to scratching and wear over time.
Can be installed with precise grout lines. This lends to a continual look to surfaces.

THE DARKER COLOR SEEMS LIKE A CONTRASTING RUG LAID ON THE FLOOR IN SHADES OF RAW CONCRETE. A DUALISM THAT DEFINES PATHWAYS AND LENGTHENS THE PERSPECTIVE, IN A PLAY OF LIGHT AND SHADOWS INTERRUPTED ONLY BY OBJECTS AND MARBLE EFFECT INSERTS.
THE HEXAGONS MADE UP OF DIFFERENTLY SHAPED SMALL TILES, WITH INSERTS INSPIRED BY MURANO GLASS, ADD A NOTE OF COLOR AND VITALITY TO THE WALLS.
The stylistic fusion that derives from the combination of surfaces, volumes, and furnishings inspired by other materials like wood and marble shift the essential character of pure industrial style a more welcoming and sophisticated aesthetic.
The surface guarantees high resistance to stains.
THE FLOOR’S CONCRETE-INSPIRED SURFACE DIALOGS IN PERFECT HARMONY WITH THE NATURAL CHARACTER OF WOOD-EFFECT PORCELAIN FLOOR TILES. AN ALTERNATION THAT DEFINES THE SPACE AND ITS DIFFERENT FUNCTIONAL AREAS.
