MADE IN ITALY. MADE TO EXCEL

RAW
Since its founding in 1891, Acme Brick has continually advanced the art and science of providing affordable, sustainable, enduring, and beautiful product choices for America’s homeowners, builders, contractors, institutions, and businesses.

Acme Brick Tile & Stone traces its roots back to 1964 and is a leader in providing builders, architects, designers, and contractors with a wide range of excellent products. At more than 50 locations across 13 states, Acme Brick Tile & Stone, offers distinctive products of superior quality, sourced from around the world and delivered with impeccable service — and at many locations, in-house design assistance. Our customers include builders, architects, designers, contractors, and DIY homeowners.

In ways large and small, Acme Brick associates work hard to provide building materials that are as good for the environment as it is for the people who build with it.
Porcelain and wall tiles: a safe choice

- IT DOES NOT BURN
- VERSATILE
- HYGIENIC
- SAFE
- ZERO PVC
- RECyclable
- LONG LASTING
- RESISTANT
- ZERO VOCs

It loves the environment.
The passage of time leaves behind layers of history that take on a high aesthetic value for interior design. Raw recreates the earthiness of time-worn surfaces and reproduces the effects of peeling plaster in a perfect balance between past and present, filling rooms with authenticity while rediscovering a surprising contemporary feel. Raw goes beyond the usual association of peeling surfaces and walls, proposing a plaster effect also for floors.
Raw interprets plaster as a layered material, an overlapping of glazes, patinas, drips, and ripples. The action of time alters the original color and generates sharp changes in tone that open up on the surface like glimpses of the past. Everything that has altered the material over its history is preserved, esthetically elaborated and recreated in the best porcelain tiles.
Enchanting imperfection

Raw represents much more than a time-worn plaster: it is a complete reworking of the unique effect of the passage of time on objects, furnishings, and surfaces. With its elegant, industrial look, Raw creates the perfect setting for an eclectic mix of furnishings and accessories in delabre style. Any imperfection in the original material is a precious element to define the space’s unique, unconventional spirit.
Warm, earthy colors like Sand and Mud are joined by cooler tones like White and Pearl. Four colors of porcelain tiles that can be combined to reflect all the shades of plaster and the signs of aging over time. A wide range of sizes for horizontal and vertical surfaces both indoor and out allows the unlimited design of any type of public or private space.
A delicate spatula effect

Compared to the porcelain floor tiles, the graphics of the wall tiles are more subtle and directed. A delicate spatula effect that can be seen in the filigree orient the plaster longitudinally and conveys the perception of a "soft wall." In addition to the neutral tones there are three new elegant colors for striking wall solutions. The 3D Scratch relief features the strong, palpable effect of peeling and dripping plaster.
Decorations designed for full customization

Grouting the joints is no longer just a functional necessity but becomes an integral part of the decoration. The possibility of choosing the most suitable grout for the design for Twist, Flag, Block and Castle sets a new standard when it comes to personalization.
The collection is completed by an original range of decorations that enhances the most contemporary and trendy designs. Porcelain floor and wall mosaics with tiles of different shapes and sizes breathe life into unique geometries, enhanced by colored joints to decorate with creativity.
A metropolitan loft in a recovered space characterized by vaults, exposed beams, and unconventional furnishing elements that bring out the timeless character of the architecture. Warm and earthy, porcelain tiles with a peeling plaster effect offer tactile and colorful suggestions that reveal the enticing side of lived-in spaces.
The Flag Mosaic plays with the contrasting color of the joint to highlight its triangular modularity.

These mosaics allow you to customize a wall by choosing the color of the grout during the laying phase. The colors presented in these pages are mood suggestions and purely indicative.

A modern villa with clean geometries that opens up to welcome the beauty of the surrounding landscape. The plaster effect lends itself to suggestive combinations with both metal and wood. The rich texture of the outdoor slabs visible in the changing light of the day reveals the full potential of the collection.
THICK PORCELAIN SLABS ARE IDEAL FOR FLOORING TERRACES, POOLSIDES, AND WALKWAYS. EXTREMELY DURABLE AND FROST-RESISTANT, THE BEAUTY OF THEIR COLORS DON’T CHANGE OVER TIME.
Porcelain tiles meet the criteria of sustainable architecture thanks to their energy efficiency and use of recycled materials.

My choice

Raw
A layered, evocative space.

A commercial space where ceramic surfaces and furnishings converge on a composed elegance based on a fusion of colors, textures, and shapes. Thanks to porcelain tiles with a peeled plaster effect, the imposing columns are much more than simple structural elements, suggesting an industrial past.
THESE MOSAICS ALLOW YOU TO CUSTOMIZE A WALL BY CHOOSING THE COLOR OF THE GROUT DURING THE LAYING PHASE. THE COLORS PRESENTED IN THESE PAGES ARE MOOD SUGGESTIONS AND PURELY INDICATIVE.
WHITE MEETS THE WARM, EARTHY LOOK OF MUD IN AN ELEGANT COUNTERPOINT THAT HIGHLIGHTS THE INFINITE VISUAL CUES OF THE LAYERED PLASTER SURFACES.
With the Castle Mosaic the joint is no longer just a functional element but rather becomes an important esthetic factor that completes and enhances the geometry of the decoration.
A restaurant opens to the public in a historic building with many past lives, all still visible in minimal traces. With its textured plaster effect, Raw celebrates the marks left by time not only on walls and structures but also on the floor.
A WELCOMING, TIMELESS ENVIRONMENT THAT THE PEELING AND IMPERFECTIONS OF THE PLASTER EFFECT OPEN UP TO CONTINUOUS BLENDING AND REGENERATION.
THE LARGE PORCELAIN TILE SIZES FORM LARGE, CONTINUOUS BACKDROPS THAT REINFORCE THE COLLECTION’S DÉLABRE STYLE.

Residential bathroom

Villa bathroom

Home spa
A refined blend of colors

Raw features a time-worn plaster effect in original colors, like the intense green of Petroleum. The richness of the ceramic surface and the layered variety of the graphic give a hotel bathroom a unique, distinctive ambiance.
THE WHITE BODY WALL TILES FEATURE SOFT, SCULPTED GRAPHICS WITH SPATULA MARKS THAT RECALL A CANVAS PAINTED BY AN ARTIST.
THE PEELING ON SCRATCH IS PARTICULARLY EVIDENT WHEN LIT FROM THE SIDE, EMPIASIZING THE COLLECTION'S EARTHY SPIRIT.

The extraordinary balance of Rose and Pearl outlines the warm and welcoming personality of a home bathroom, embellished with elegant graphic mosaic inserts. The aged plaster effect suggests echoes of the past that colors, architecture, and furnishings reinvent in full expressive freedom.
IN COMBINATION WITH THE BRIGHT PEARL GRAY OF THE FLOOR, ANTIQUE PINK IS ONE OF THE ORIGINAL COLORS USED IN THE WALL TILES.
THANKS TO THE PURELY GRAPHIC TEXTURE AND THE CONTRASTING COLOR OF THE JOINT, THE MOSAIC INSERTS ON THE WALL OFFER IMMENSE CREATIVE FREEDOM.

Delicately contrasting colors

A bathroom where walls, volumes, and niches are both decorative and functional. Pearl and Blue adorn the space with elegance in discreet, contrasting tones that reveal all the collection’s graphic richness.
THE REALISM OF THE WALL TILES’ PLASTER LOOK IS SURPRISING, ESPECIALLY IN THE NEW COLORS.
THE CHOICE OF A COLORED GROUT THAT RECALLS THE TONES OF THE ENVIRONMENT ENHANCES THE DESIGN OF THE BLOCK MOSAIC.

THESE MOSAICS ALLOW YOU TO CUSTOMIZE A WALL BY CHOOSING THE COLOR OF THE GROUT DURING THE LAYING PHASE. THE COLORS PRESENTED IN THESE PAGES ARE MOOD SUGGESTIONS AND PURELY INDICATIVE.
CONTAINS GOLD. THE USE OF A COMMON MILD DETERGENT IS RECOMMENDED. AVOID USING ACIDIC OR ALKALINE PRODUCTS, WAXES, STEEL WOOL, OR ABRASIVES.

THE PORCELAIN TILE WASHBASIN COMBINES THE LOOK OF THE PLASTER EFFECT WITH THE GUARANTEE OF AN UNALTERABLE SURFACE.

A strong industrial character

Raw finds a perfect balance with the metal look, with which it shares an industrial matrix. An interesting mix to view in its entirety for a bathroom whose quality is the result of a set of surfaces, finishes, and furnishings in perfect délabré style.
THE EVOLUTION OF SURFACES OVER TIME BECOMES A TREND IN INTERIOR DESIGN, FOR SPACES WITH A STRONG INDUSTRIAL SPIRIT.
 THESE MOSAICS ALLOW YOU TO CUSTOMIZE A WALL BY CHOOSING THE COLOR OF THE GROUT DURING THE LAYING PHASE. THE COLORS PRESENTED IN THESE PAGES ARE MOOD SUGGESTIONS AND PURELY INDICATIVE.

IN ADDITION TO THE FOLDED RIBBON MOTIF, THE APPEARANCE OF THE FLAG MOSAIC IS ALSO A RESULT OF THE GROUT USED, WHETHER CONTRASTING OR TONE-ON-TONE.

Ceramic and porcelain tiles: a safe choice

Resistance and duration

**Easy to maintain**

Porcelain tiles do not require any special maintenance.

**UV Resistant**

Porcelain tiles maintain their colors even when exposed to continuous, direct sunlight or in contact with atmospheric agents or smog.

**Scratch resistant**

Porcelain tiles do not split, break or get damaged.

**Easy to clean**

Porcelain tiles are easy to clean.

**Stain resistant**

Porcelain tiles are waterproof, no liquid can damage the surface.

**Resistant to chemicals**

Porcelain tiles do not stain and resist the most aggressive chemical agents.

**Resistant to acids**

Porcelain tiles are resistant to acids found in food and cleaning products.

**Resistant to thermal shock**

A porcelain tile floor will not change as a result of sharp temperature fluctuations.

**Waterproof**

Porcelain tiles are completely non-porous and therefore are not damaged by water or humidity.

**Frost resistant**

Porcelain tiles are frost resistant and therefore are not damaged by low temperatures.

Health

**Zero VOCS**

Porcelain tiles are intrinsically inert and do not emit volatile organic compounds (VOC).

**Zero PVC**

Porcelain tiles contain no PVC, plastics or petroleum derivatives.

**Zero formaldehyde**

Porcelain tiles do not contain formaldehyde.

**Zero allergens**

Porcelain tiles are intrinsically inorganic and do not emit volatile organic compounds (VOC).

**Prevent bacterial growth**

Porcelain tiles are inhospitable for mites, bacteria, fungi, molds, and other irritants.

**Zero PVC**

Porcelain tiles are completely hygienic and inhospitable for bacteria, mites, molds, and fungi.

Safety

**Non-slip**

Porcelain tile surfaces can be made with an abrasive surface grit that can increase traction and reduce the risk of slipping.

**Fire resistant**

Porcelain tiles are not flammable, reduce the spread of flames, do not burn, and do not emit toxic fumes.

**Heat resistant**

Porcelain tiles do not change shape at high temperatures.
Porcelain tiles have a low environmental impact at all stages of their production, from the raw materials to disposal and recycling. The high thermal inertia of porcelain tiles moderates the changes in temperature of the rooms, favoring energy savings.

Porcelain tiles are made with recycled materials, last a long time, and can be re-used because they retain their original appearance. Porcelain tiles are ideal for floor heating systems.

Porcelain tiles can be effectively combined with floor heating systems.

Porcelain tiles are ideal for use on the floor thanks to their hardness and extreme durability. While porcelain tiles are ideal for use on the floor, thanks to their hardness and extreme durability. The light weight and workability of white body tiles make them ideal for use on walls: cuts and holes can be made quickly and easily, reducing installation time and costs.

Cuts, holes, and bevels are easily made and reduce the time it takes to lay the white body tiles. White body ceramic tiles can be cleaned with a simple passage of hot water or neutral detergent.

**Porcelain tiles**
- **Length and width:** ± 0.3 mm, ± 0.5 mm
- **Rectangularity:** ± 0.3 mm, ± 0.5 mm, ± 1.0 mm
- **Thickness:** ± 0.5 mm, ± 0.3 mm
- **Moisture expansion:** ± 0.8 mm

**Technical features**
- **Surface Finish:** Matte
- **Porcelain tiles:** Porcelain tiles
- **Slip resistance:** R10
- **Coated in:** 7 cm
- **Rectangularity:** ± 0.75 (***) ± 0.5 (***) ± 1.5 (***) ± 0.3%

**Reagents for nominal size N**

**Note:** The permissible deviation, in % or mm, of the average size for each tile (2 or 4 sides) from work size (WS).

**Note:** The maximum permissible deviation from straightness, in % or mm, related to the corresponding work sizes (WS).

**Note:** The maximum permissible deviation from edge curvature, in % or mm, related to the corresponding work sizes (WS).

**Note:** The permissible deviation, in % or mm, of the average thickness for each tile from the work size thickness (WS).

**Note:** The maximum permissible deviation from warpage, in % or mm, related to diagonal calculated from the work sizes (WS).

**Determination of slip resistance of pedestrian surfaces:** It does not cover sports surfaces and road surfaces for vehicles (skid resistance). Anti-slip performance is guaranteed at the time of delivery of the product.

**Reaction to fire:** Declared Class C2 (EN 12004)

**Dry 3D Scratch:** Class C2
